Sanitize Solutions USA - Premium Branded Hand Wipes

Ingredients & Uses

Our premium branded hand wipes are designed to offer a clean, refreshing experience for your customers. Made with high-quality, FDA-approved ingredients, these wipes are safe and ideal for use before and after meals. Each wipe is individually packaged with an internal aluminum film to ensure lasting freshness.

Ingredient	Function
Cetylpyridinium Chloride (CAS-No.: 123-03-5)	An antiseptic that kills bacteria and other microorganisms to help disinfect.
Propylene Glycol (CAS-No.: 57-55-6)	A plant-based moisturizer derived from glucose through fermentation. Keeps skin hydrated and prevents wipes from drying out.
2-Phenoxyethanol (CAS-No.: 122-99-6)	A preservative that extends shelf life by preventing microbial growth.
Benzalkonium Chloride (CAS-No.: 63449-41-2)	Acts as an antimicrobial disinfectant to eliminate bacteria and viruses.
Glycerin (CAS-No.: 56-81-5)	A skin conditioning agent that moisturizes and smooths the skin.
Ethylhexyl Glycerol (CAS-No.: 70445-33-9)	A skin conditioning agent with antimicrobial properties, keeping wipes effective and safe.
Aloe Vera (CAS-No.: 94349-62-9)	Provides a natural, gentle scent and soothes the skin with anti-inflammatory and moisturizing properties.
RO Water (CAS-No.: 7732-18-5)	Acts as a solvent to dissolve other ingredients and provides moisture.
